

GOLF

You don't have to be an avid golfer to appreciate the natural splendor of our five area courses. Teeing off over a green meadow with a snowcapped mountain at your back may not automatically improve your handicap, but it will improve your mood!

TOP 5 SCENIC GOLF HOLES

Fairways flanked by towering pines, perfectly manicured greens overlooking the crystal-clear water, and tee boxes that offer dramatic views of the mountains beyond are just a few of the striking scenes that await.

Each golf course has its own appeal, but we rounded up some of our favorite holes that showcase both dramatic scenery and challenging play. Explore our favorites (in no particular order – let’s face it...they are all amazing!):

JUG MOUNTAIN RANCH

16TH HOLE

Set at the base of Jughandle Mountain, the 16th hole at Jug Mountain Ranch is a long par 5, dogleg right. The tee shot is played uphill and over natural wetlands with a perfect view of Jughandle Mountain. Once on the fairway, thick groves of trees line each side of the hole, while Boulder Creek crosses the narrowing fairway near the green.

CASCADE GOLF COURSE

6TH HOLE

Tucked next to Lake Cascade, this 9-hole course may just be the most scenic in the area. Each hole offers beautiful views of the lake, but we love #6 for its exciting tee shot over the water. Starting on a bluff above this par 4, a solid drive is required to carry the water. Women can play the forward tee, but we recommend taking a shot at playing from the tips on this hole!

MCCALL GOLF CLUB

ASPEN #1

With 27 holes to choose from, finding a favorite at McCall Golf Club is a tough choice, but Aspen #1 is a beauty. The 370 yard par 4 has a tree lined fairway with a stunning view of Brundage Mountain and water features to the left of the fairway and green, which was rebuilt in 2016. If you are lucky, you may also see some of the resident deer wander through your tee shot adding to both challenge and aesthetic appeal to Aspen #1.

MEADOWCREEK GOLF COURSE

13TH HOLE

Located at the 45th parallel in New Meadows, this 6,696 yard course offers a thrilling round of golf. With par 4s and 5s dominating this course, we love hole 13 for its short and sweet challenge. Precision is the name of the game with a tee shot over natural wetlands. Your reward? Expansive views of the golf course and mountains beyond. You may even catch a glimpse of Brundage Mountain in the distance.

WHITETAIL CLUB

16TH HOLE

This private course has a dual personality. Half of the holes wind through mature pines while the other half take advantage of wide open views. Hole 16 is the latter. This par 3 offers plenty of challenge with a tee shot over the water paired with the scenic beauty of a stream that crosses the hole and flows smoothly into a large pond. Don't be fooled by the serene setting. While the water features add ambiance, they can be hazards to your score.
